Please forward this to your acquisitions department

Dear

Please include the following online resource in your next acquisition review meeting, with my recommendation to subscribe to:

Manual of European Environmental Policy - Online

2010 sees the relaunch of the *Manual of European Environmental Policy* as an online resource. The *Manual* is an essential guide for all who need to keep pace with EU environmental policy.

Published since 1992, the *Manual* has been restructured and refocused to give it a truly pan-European perspective. The *Manual of European Environmental Policy* is written by the Institute for European Environmental Policy (IEEP).

An understanding of EU environmental law and its effects is essential for individuals and organisations concerned with environmental policy, either at the national or international level. However, as the body of EU legislation grows, and the nature of environmental policy evolves, it is getting increasingly difficult to keep up with the developments and their implications. Hence the need for a reliable and systematic *Manual*, updated regularly and combining a guide to individual measures with the necessary background and context.

I recommend the *Manual* for the following reasons:

- REFERENCE:** This resource is directly related to my field and is an important source of reference for my work. I need to refer to this resource frequently in the course of my work.
- COLLEAGUE REFERRAL:** It is essential that my colleagues have access to this information to best facilitate their work. I will be referring my colleagues to this resource regularly.
- BENEFIT FOR ORGANIZATION:** This resource will be a valuable addition to the organization's collection. Its acquisition will assist the organization in fulfilling departmental and client needs.
