

## Library Recommendation Form

Please forward this to your Serials Librarian/Library Acquisition Committee

Dear Serials Librarian/Information Specialist,

Please include the following journal in your next serials review meeting, with my recommendation to subscribe to the following Earthscan journal:

### Climate and Development

Climate and Development is the first academic journal dedicated to the range of issues that arise when climate variability, climate change and climate policy are considered along with development needs, impacts and priorities. It aims to make complex analysis of climate and development issues accessible to a wide audience of researchers, policymakers and practitioners, and to facilitate debate between the diverse constituencies active in these fields throughout the world. Climate and Development is of direct and vital relevance to academics, policy analysts, consultants, negotiators, industrial and non-governmental organisations, and to all those working to ensure a better understanding of the links between climate and development.

**Editor in Chief: Richard Klein, Stockholm Environment Institute, Sweden**

[www.earthscan.co.uk/journals/CDEV](http://www.earthscan.co.uk/journals/CDEV)

ISSN: 1756-5529

E-ISSN: 1756-5537

2010: Volume 2, 4 issues

I recommend this journal for the following reasons:

- REFERENCE:** This journal is directly related to my field and is an important source of reference for my research. I need to refer to articles from this journal frequently in the course of my work.
  - STUDENT REFERRAL:** It is critical that students have access to this information to best facilitate their course work and academic pursuits. I will be referring my students to this journal regularly.
  - BENEFIT FOR LIBRARY:** This journal will be a valuable addition to the library's collection of scientific resources. Its acquisition will assist the library in fulfilling departmental, faculty and student needs.
  - OWN AFFILIATION:** I am a member of the editorial/advisory board and strongly support Earthscan's journals as an essential resource. I regularly recommend articles to students and colleagues.
