

## Library Recommendation Form

Please forward this to your Serials Librarian/Library Acquisition Committee

Dear Serials Librarian/Information Specialist,

Please include the following journal in your next serials review meeting, with my recommendation to subscribe to the following Earthscan journal:

### Environmental Hazards: Human and Policy Dimensions

*Environmental Hazards: Human and Policy Dimensions* is an innovative, interdisciplinary and international research journal addressing the human and policy dimensions of hazards.

The journal addresses the full range of hazardous events from extreme geological, hydrological atmospheric and biological events such as earthquakes, floods, storms and epidemics to technological failures and malfunctions such as industrial explosions, fires and toxic material releases. *Environmental Hazards: Human and Policy Dimensions* is the source of the new ideas in hazards and risk research.

With a genuinely international perspective, this journal highlights issues of human exposure, vulnerability, awareness, response and risk. The role of hazards in affecting development, and issues of efficiency, social justice and sustainability are also explored in the journal.
