

E-Alerts – Keep up to date with new Earthscan titles

Please note that the best way to keep up to date with new Earthscan titles is to sign up to our **free** monthly E-Newsletter – visit www.earthscan.co.uk to sign up. The newsletters announce exclusive discounts, and they include easy links for ordering online, and for requesting review and inspection copies. Subject-specific e-alerts include: *Agriculture & Food • Architecture & Construction • Business & Environmental Management • Cities & Infrastructure • Climate Change • Design • Development • Ecology, Biodiversity & Conservation • Economics • Energy • Environmental & Sustainability Assessment • Forests • Health & Population • Natural Resource Management • Politics, Governance & Law • Risk, Science & Technology • Sustainable Development • Tourism*

Announce your events to our members – it's free!

We aim to provide our 35,000+ members worldwide with links to the most relevant and active organizations in each of the fields in which we publish. We would therefore like to invite you to become one of our marketing partners.

Some partner benefits

- Announce your events in our monthly e-newsletter, distributed to 35,000 subscribers worldwide
- Post your events on our online conference diary – the most visited page on our new website
- Free weblink on our links page
- Special offers for your faculty and students, on selected Earthscan books and journals
- We are very willing to be flexible, and welcome any additional ideas / suggestions!

Please get in touch with **Andrew Miller** (contact details below) to get things rolling, e.g. send details of a forthcoming event you would like to promote. Please also let us know if you publish a magazine, journal, listserv or newsletter for which we could submit announcements, books for review, special offers or inserts. We may have only a general contact address on our database, so specific contact information for these channels would be greatly appreciated.

Order Earthscan catalogues – they're free!

Currently available catalogues include: *Built Environment • Business, Climate & Energy • Natural Resource Management • Sustainable Development, Economics & Politics • New Titles 2008.*

To order any of the above catalogues please visit www.earthscan.co.uk. If appropriate please circulate this free catalogue offer to faculty members so that they can request personal copies of the catalogues that most interest them. You can also download any Earthscan catalogue from our website.

Requesting Inspection Copies

Our books are available on inspection to bona fide course leaders where an adoption would lead to sales of 10+ copies. Please include: name of course, number of students; course start date, book title and ISBN when you request an inspection copy from coursetexts@earthscan.co.uk

Submitting book proposals

We are always keen to work with new authors and to discuss projects for which you may have publishing plans. If you have a book proposal which you think may be suitable for Earthscan and you would like to get in touch you can find all the information you need at <http://www.earthscan.co.uk/Informationfor/Authors/tabid/495/Default.aspx>

For further information, or if have any queries at all, please contact Andrew Miller andrew.miller@earthscan.co.uk

Library Recommendation Form

Please forward this form to your Serials Librarian/Library Acquisition Committee.

Dear Serials Librarian/Information Specialist:

Please include the following book(s) in your next serials review meeting, with my recommendation to order the following Earthscan book(s):

TITLE	ISBN	PRICE (£)	QTY

I recommend the book(s) for the following reasons:

- REFERENCE: This book is directly related to my field and is an important source of reference for my research. I need to refer to articles / chapters from this book frequently in the course of my work.
- STUDENT REFERRAL: It is critical that students have access to this information to best facilitate their course work and academic pursuits. I will be referring my students to this book regularly.
- BENEFIT FOR LIBRARY: This book will be a valuable addition to the library's collection of scientific resources. Its acquisition will assist the library in fulfilling departmental, faculty and student needs.
- OWN AFFILIATION: I am an author / co-author / contributor and strongly support Earthscan's books as an essential resource. I regularly recommend books to students and colleagues.
